JUNREY M. ALGARIO

Tacloban City, Philippines
09955793279
junrey.algario@gmail.com

SUMMARY

- Over 4 years of experience in full stack web development, mobile app development.
- Proficient in a wide range of programming languages, including JavaScript, Typescript, PHP, Dart, Node.js and Java.
- Strong knowledge of front-end technologies such as HTML5, CSS3, Vue.js, and Nuxt.js.
- Extensive experience with back-end development using PHP, Laravel, and Node.js, including the implementation and consumption of RESTful APIs.
- Skilled in database design and management using SQL databases like MySQL and PostgreSQL.
- Expertise in mobile app development with Flutter and Android Studio, including UI/UX design, API integration, and performance optimization.
- I am familiar with version control systems like Git and collaborative development using platforms like GitHub.
- Capable of setting up and optimizing AWS EC2 instances and experienced in deploying and managing web applications and services using Elastic Beanstalk.
- Experienced creating a GitHub Custom Action to deploy to a remote server involves setting up an automated workflow that deploys your code changes from a GitHub repository to a remote server.

POFESSIONAL EXPERIENCE

Software Engineer
SoftNext
November 2021 – Present

Tech-stacks:
- Vue.js, Nuxt.js, Typescript, PHP, Laravel, MySQL and Flutter.

Responsibilities:
- Designed, developed, and deployed applications to AWS EC2.
- Implement RESTful APIs, authentication, and database interactions.
- Developed mobile application using Flutter and APIs integration.
- Provide mentorship and manage junior software engineers to ensure successful collaboration on projects.

Fullstack Developer
Dearwolves Software Development Services
October 2020 – October 2021

Tech-stacks:
- Vue.js, React.js, Typescript, PHP, Laravel, Node.js, Nest.js, MySQL, PostgreSQL, Flutter and Android native using Java.

Responsibilities:
- Implement RESTful APIs, authentication, and database interactions.
- Developed and improved existing web applications.
- Develop and maintain mobile applications using Flutter and Android Studio (Java).

Fullstack Developer
Freelance
June 2019 – February 2021

Tech-stacks:
- JavaScript, Vue.js, PHP, Laravel, Node.js, MySQL and Android app development.

Responsibilities:
- Collaborating closely with my clients to understand their specific needs, gather requirements, and deliver solutions that address their challenges effectively.
- Developing customized software solutions tailored to the unique needs and challenges of my clients, which mainly comprised college students and local organizations.
- Offering services in web and mobile app development, ensuring that my clients have access to modern and user-friendly digital platforms.

Web Developer (Internship)
Eastern Visayas State University
November 2019 – April 2020

Tech-stacks:
- JavaScript, jQuery, PHP, CodeIgniter and MySQL.

Responsibilities:
- Created an innovative EVSU Classroom Scheduling System, streamlining and optimizing the allocation of classroom resources for enhanced efficiency and organization within the university's academic environment.
- I took a leadership role in spearheading the development of the EVSU Classroom Scheduling System alongside my co-intern, demonstrating proactive and collaborative skills in overseeing this project's successful implementation.

EDUCATION

Bachelor of Science in Information Technology
Eastern Visayas State University
June 2016 – May 2020
Tacloban City, Philippines
